MARIO MORENO

AI-First Senior Engineering Manager & Software Architect

PROFESSIONAL SUMMARY

Systems Engineer with 20+ years of experience transforming legacy architectures into high-availability cloud-native ecosystems. Evolving development teams into "AI-First" organizations, significantly increasing delivery velocity and code quality. Managed multicultural squads of 30+ engineers in hyper-growth Fintech and Energy environments.

PROFESSIONAL EXPERIENCE

Senior Engineering Manager | VEMO
AI-First Transformation & Watts Ecosystem **Sep 2025 – Present**

- Led adoption of Claude Code across engineering, optimizing SDLC and reducing time-to-market.
- Orchestrated the tech strategy for Mexico's leading EV charging platform, ensuring top-tier scalability.

Senior Engineering Manager | Mercado Libre
120x Scaling & Fintech Ops **Aug 2019 – May 2025**

- Scaled daily FX operations from \$50K to **\$6M USD avg**, establishing the corporate "Source of Truth" for FX.
- Led architectural reengineering of international payments, enabling expansion to 5 countries.
- Managed high-traffic microservices for Crypto and Dollar MEP operations in Argentina.

Senior Technical Lead | In All Media / DataArt
Global Solutions Delivery **Apr 2018 – Aug 2019**

- Architected critical solutions for global Energy and Finance clients, leading distributed remote teams.

Architect & SME | Globant
Architecture Strategy & Standards **Oct 2013 – Aug 2017**

- Member of Corporate Architecture Team, enforcing Clean Code/CI/CD standards and leading Design Reviews.

EDUCATION

Systems Engineer (Software Engineering) UNCPBA University, Argentina
